

Ironing Table for Front and Lateral Part Seams — BRI 110E/101 Classic

Specialised table for precise pressing of jacket front parts and lateral seams — supplied with the BRI 1 iron.

Special Features

- Special ironing surface with chest slit to prevent deformation in the chest area.
- Includes BRI 1 iron for immediate operation.
- Optional unloading station increases productivity with separate stacking of left and right front parts.
- Optional table extension adds deposit area — improves workstation layout.
- Optional programmable tape dispenser BRI 10 (two rolls) automatically cuts fusing tape to preset lengths — speeds workflow.
