

Edge Buck Table BRI 130/101 Basic

Precision edge pressing table with stainless steel, condensate heated edge buck — supplied with the BRI 1 iron.

Special Features

- Exchangeable buck ends for single breasted and double breasted jackets.
- No cover material required thanks to stainless steel edge buck (condensate heated).
- Edge buck table includes the BRI 1 iron.
- Higher productivity with optional lapel peak turner (turns lapel peak after opening the jacket front edge).
- Versatile: optional additional buck ends to adapt to different jacket styles.

Options

Lapel peak turner

Accessory to turn lapel peak after opening front edge — speeds workflow

Additional buck ends	Swap to match jacket style (single/double breasted, variations)
----------------------	---

Ideal for precise front edge shaping on jackets with minimal maintenance and fast changeover.
